Lobby Platform

Founded in 2007

The Federal Association of Loan Purchase and Servicing (Bundesvereinigung Kreditankauf und Servicing or BKS) is based in Berlin and represents the interests of its 31 member companies that are currently active in loan portfolio transactions in Germany. Politically, the BKS lobbies for a functioning secondary loan market.

Networking

Exclusive events & high-ranking keynotes

Events for our members and for the buying side aim to promote the exchange of insights within the industry. Some of keynote speakers were the State Secretary Dr. Jörg Kukies (BMF) at the BKS Management Day, Prof. Dr. Peter Bofinger and Prof. Dr. Dr. h.c. mult. Hans-Werner Sinn at the NPL Forum as well as Christopher Pleister (SoFFin), Kolja von Bismarck (Linklaters), Dr. Michael Kemmer (BdB) and Uwe Fröhlich (BVR) and many more at our BKS Roundtable. The BKS advisory board also includes representatives of the leading credit institutions in Germany.

Think Tank

Publications & knowledge transfer

We provide the community with debates, market studies and basic knowledge. In our working groups, we find common answers to practice-oriented questions, i.e. on the taxation of NPL portfolio transactions, foreclosures, data protection and insolvency law.

Integrity and responsibility

Self-regulation & transparency

Our Code of Conduct along with the registration with the German Parliament (Bundestag) create trust and transparency.

Membership

9,000 Euro p.a., that's definitely worth it

A membership is fully profitable. It allows you an exclusive network access to sellers, buyers and service providers of NPLs, along with free participation in working groups, regular publications and access to our exclusive events, it increases your external visibility with all stakeholders and offers you a genuine added value. You will find all the benefits on the next page.

Benefits of a membership

Benefit	Full member (only possible as buyer or servicer of NPLs)	Supporting member (service provider for the NPL industry)
